

SPONSORSHIP PROPOSAL

**2025 ANNUAL
CONFERENCE**

Hosted by the Flinders Ranges Branch

2025 State ICPA Conference

ABOUT ICPA

ICPA is a not for profit, apolitical organisation run entirely by volunteers that advocate for equitable educational outcomes for all rural and remote children across Australia. We believe the quality of a child's education should not be determined by their postcode.

The annual **State Conference** is one of SA ICPA's most important activities which attracts around 80 to 100

members and guests from around Australia and includes key stakeholders from within government departments/agencies, politicians, supporting organisations and the media. Members are able to bring their education focussed issues/concerns to the Conference to request State Council's help in resolving them. Issues range from early childhood service delivery, rural school transport and support, distance education, communication, to trade and tertiary. There is no other organisation that advocates solely for rural and remote children's education.

SA ICPA provide an incredibly important role acting as a conduit between rural and remote families and the Department for Education.

Flinders Ranges Branch

ABOUT US

The Flinders Ranges Branch of the Isolated Children's Parents' Association (ICPA) was formed in 1991 from the original Port Augusta Branch. Instigated by Marie Spiers, Richard and Janne Warwick, it was felt there were enough members locally to form an independent branch, and after our first meeting we had 30 member families. Our branch covers a spectacularly beautiful area of South Australia that includes the towns of Blinman and Parachilna in the

north, Orroroo and Quorn in the south, and Hawker is the central hub. Students in our region are enrolled at Port Augusta School of the Air, Hawker Area School, Orroroo Area School, Hawker CPC, and RICE, with some students boarding away from home to access Secondary education.

Each year we try to hold at least one major fundraising event. Members find these a great opportunity to get together socially while working hard to raise funds. We do a lot of catering including Variety Club bashes when they travel through our region, we also run a BBQ and cheese platter stall at the Hawker Races each year. These events help to raise the profile of ICPA in our region and beyond. The money we raise has helped many local children's organisations as well as funding our members attendance at State and Federal Conferences.

2025 State ICPA Conference
