

20<sup>th</sup> October 2020

Dear

Welcome to ICPA WA. We are delighted that you have chosen to join us in the pursuit of educational equity for rural and remote students.

In this folder you will find a few documents aimed at helping you understand who ICPA is and what it does, including a brief history of the organisation.

Motions put through branches at State and Federal Conferences are the primary way to bring your issues to the State and Federal councils who advocate for change on your behalf.

Members of the State Council are always willing to listen to your concerns so feel free to ring or email them. There is a list of councillors, their contact details and their portfolios in the file.

If you would like to read more about ICPA and recent events both here and nationwide please go to the Website, [www.icpa.com.au](http://www.icpa.com.au).

ICPA (WA) is committed to getting a fair deal for rural and remote students, of all ages, from Esperance to Kununurra and all places in between. Thank you so much for your support.

Kind Regards

*Sally*
