

## **DISTANCE EDUCATION**

### **A9. JULIA CREEK BRANCH**

**“That ICPA Qld lobby DoE as a matter of urgency to provide updated links to ALL of the interactive activities and resources within the Distance Education papers to meet the current technology.”**

CARRIED

Explanation: With the cessation of associated programs and updated technology being used many of the current links to interactive activities, eBooks, and videos do not work. The links within the papers are broken and no longer supported by current technology. This is a very frustrating and time consuming task for Home tutors to wrestle with as they need to either find an alternative manner to access the resource or find a relevant alternative activity. When these links are simply removed the curriculum becomes very one dimensional and doesn't cater to children's different learning styles.
